

Creation Care

The Cornerstone Fund recognizes the importance of protecting our planet and believes that every organization is responsible for reducing its environmental impact. To help these churches be catalysts for Creation Care change in their communities, the Cornerstone Fund created the Creation Care Investment and Loan program.

Investors* who care deeply about Creation Care and addressing the detrimental effects of climate change can make an impact investment* in the Cornerstone Fund. Your investment allows the Cornerstone Fund to offer lower subsidized loan rates to United Church of Christ congregations taking action on climate change.

Impact

To reduce their carbon footprints, United Church of Christ congregations are undertaking projects such as:

- Installing solar panels
- Replacing boilers with energy efficient HVAC systems
- Installing geothermal power
- Making energy efficiency improvements to buildings

These improvements also bring tremendous savings by lowering energy bills and frequently qualifying for local, state, and federal clean energy rebates.

The Cornerstone Fund team understands that every project is unique, and we are committed to helping you explore your financing options and select one that suits your church's needs.

Make a difference with your money!

Investment* Details

Term: 36 months

Interest Rate: 3.00%

Minimum Investment Amount: \$500
